How to Bind the Device with Your Account?

Step 2: enter the register slides

Register an organization account

A screenshot of the PTI Scanner registration form for an organization account. The form is titled 'Register an organization account' and has a navigation bar with 'clinic' and 'Mechanic / dealer' options. The form fields are: * Name (Please enter full name), * phone (+86 Please enter an 11-digit mobile phone number), * password (Please enter the password), * Confirm (Please enter the password again), email (Please enter email), and * Code (Please enter the verification code). There is a checkbox for 'I have read agreement' and two buttons at the bottom: 'return' and 'register'.

Step 3: Prepare these registration information.

(Note: each type of registration cannot use the same phone number and email address, it must be an unregistered phone number and email address)

1. Full name of lab/mechanic/dealer accounts name: 2. Phone number: 15082804444(case)

The phone number requires 11 digits and is in the Chinese number format, (+86...) does not affect the login and use, you can just fill in your phone number and ignore the error note below. Also, the email can also log in and retrieve the password.

Later, it will be possible to register all country phone numbers.

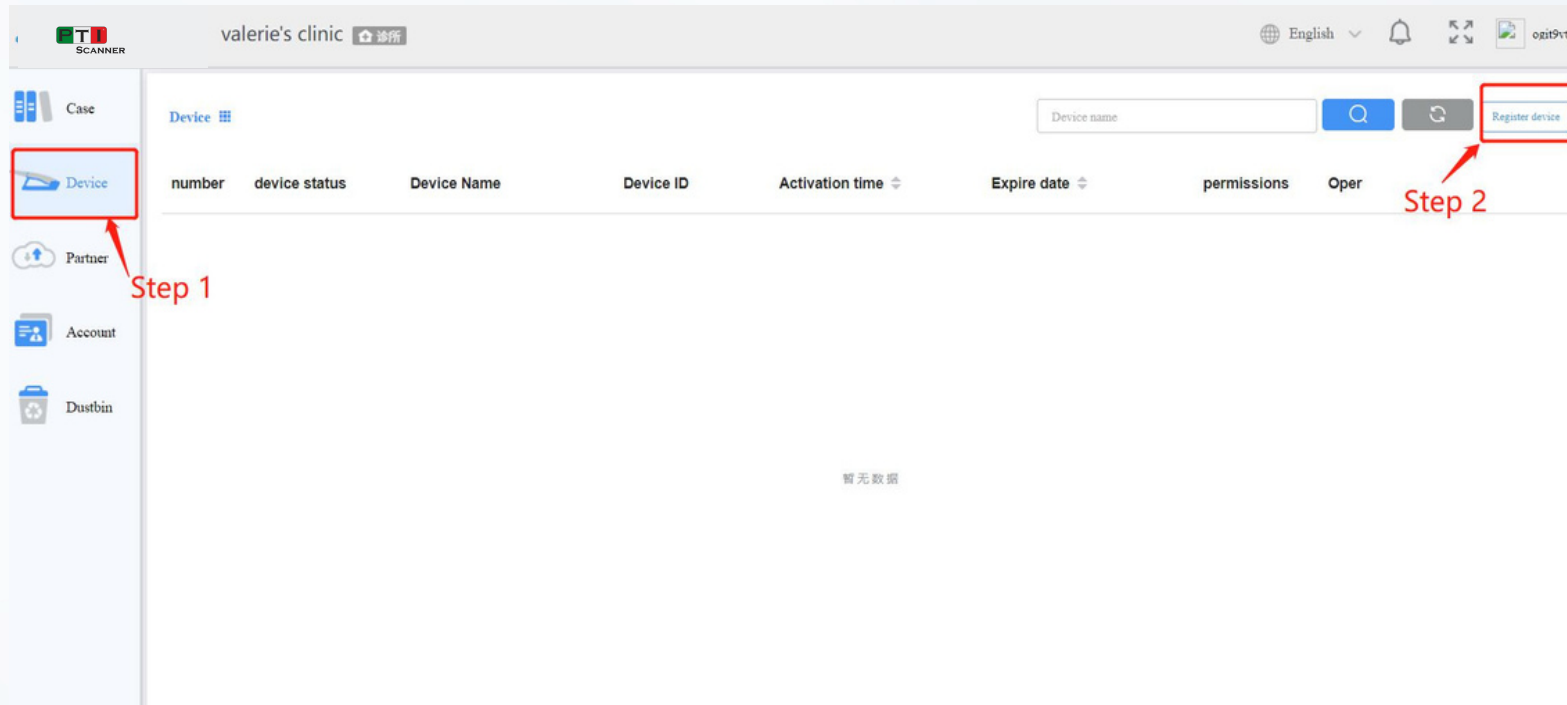

3. email :
4. The password you want to set: 5. Equipment number:ISO....

How to Bind the Device with Your Account?

Step 4: Register Devices

Click the “Device”, and then the “Register device” to bind the devices under you account.

Note: when the device is bound, it is considered as device activation and the warranty will start with activation.

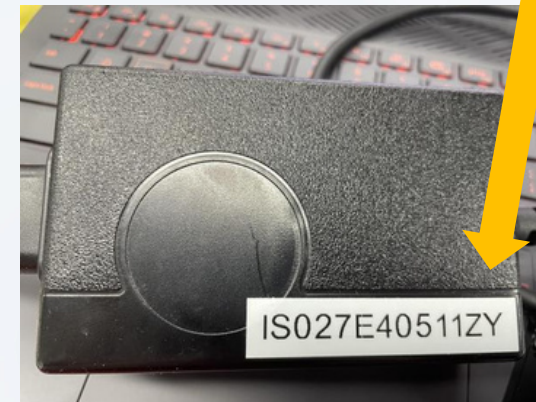

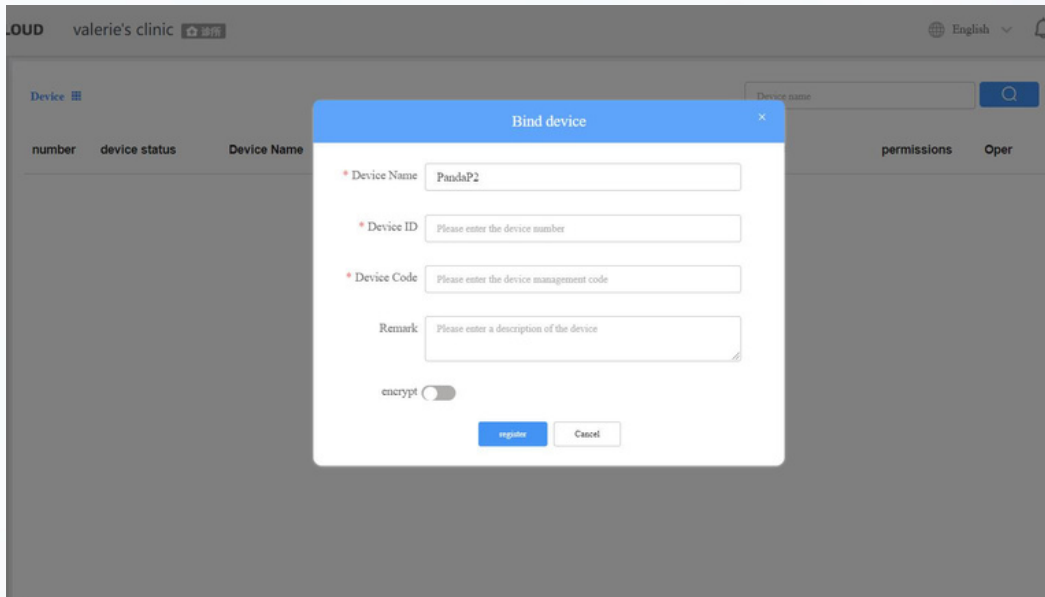

How to Bind the Device with Your Account?

Fill in the information to bind your account.

Note: The device code can only be provided by us according to the Device ID you provided. So before the registration, please give us the device ID and we will tell you the Device Code. The Device ID is on your battery of the device, and you also can check it on the adapter .

That is where you can find the Device ID.

how can clinic send data to the lab ?

How can the Clinic Send Data to Lab

Step 1: Cloud platform settings

Register another account for the Lab, and you can use the phone number and email address of the lab to register or register with your own name and email and provide the account to the lab or factory, just to receive data.

(please be noticed when you register an account to received the data, you register under the Mechanic/dealer as the picture shows.)

If you have successfully registered the lab account, you can provide the account to lab or factory to log in and download the data you uploaded after scanning.

A screenshot of the PTI Scanner registration form for an organization account. The form is titled "Register an organization account" and is displayed on a mobile device. The form includes fields for Name, phone, password, Confirm, email, and Code. A red box highlights the "Mechanic / dealer" option under the "clinic" header. The "register" button is highlighted in blue.

How can the Clinic Send Data to Lab

Clinic ID: [Log in the clinic account](#) and click [transmission](#) button of the according device, and add lab information (clinic can send data scanned by this device to lab).

Lab ID: no need to click transmission.

The screenshot shows the PTI Scanner web interface. The top navigation bar includes the PTI logo, the user name 'ClinicStrayTannlegesenter' with a home icon and '诊所', a language dropdown set to 'English', a notification bell, a refresh icon, and a user profile icon for 's2utq7i9'. The left sidebar contains navigation options: Case, Device (selected), Partner, Account, and Dustbin. The main content area is titled 'Device' and features a search bar for 'Device name', a search button, a refresh button, and a 'Register device' button. Below this is a table with the following columns: number, device status, Device Name, Device ID, Activation time, Expire date, permissions, and Oper. The table contains one row with the following data: number 1, device status other, Device Name PandaP2, Device ID IS027E51655ZY, Activation time 2021-12-13 19:15:54, Expire date permanent, permissions user, and Oper containing 'Add user' and 'Transmission' buttons. The 'Transmission' button is highlighted with a red box.

number	device status	Device Name	Device ID	Activation time	Expire date	permissions	Oper
1	other	PandaP2	IS027E51655ZY	2021-12-13 19:15:54	permanent	user	Add user Transmission

How can the Clinic Send Data to Lab

Fill in phone number of the lab account.

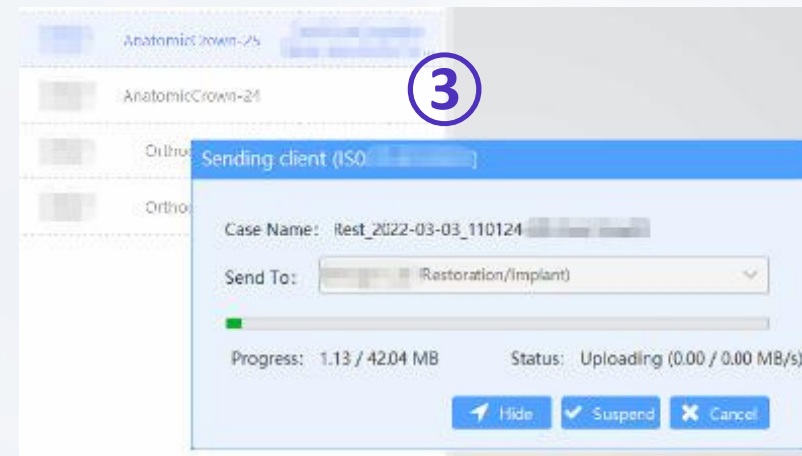

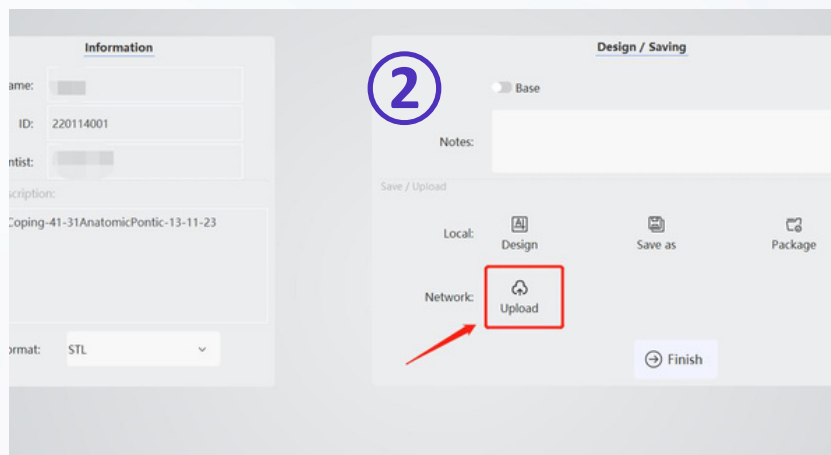

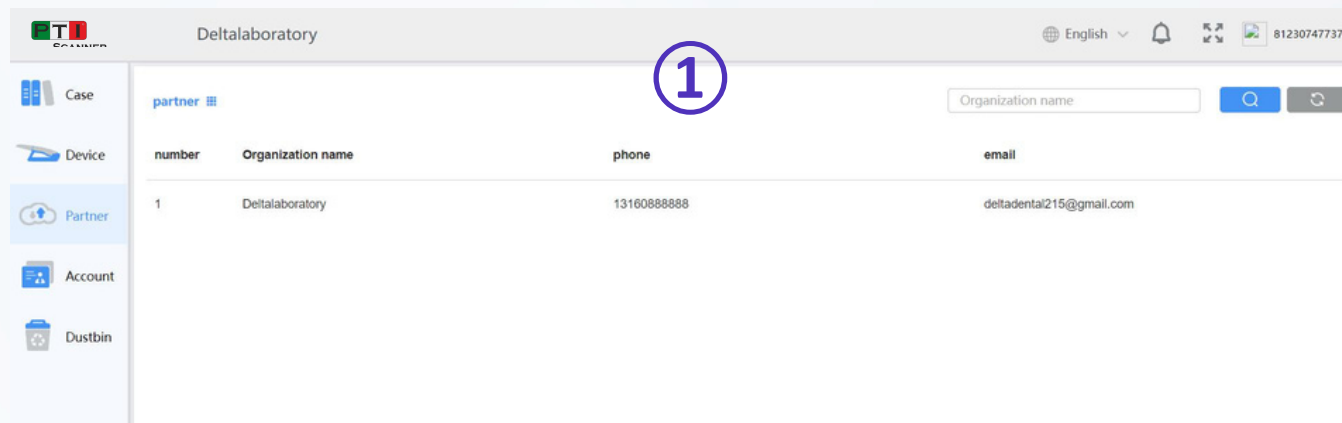

The screenshot shows the PTI Scanner web interface. A modal dialog titled "Data transfer management" is open. It displays the "Device ID" as IS027E51649ZY. The "Receiver" field is highlighted with a red box and contains the text "Inquire about technical factory (mobile phone n". Below this, there are radio buttons for "Case type" with options "repair", "Planting" (selected), and "Orthodontics". An "add" button is present. At the bottom, a table lists existing entries:

Case type	Customer name	operation
Planting	Deltalaboratory	delete
repair	Deltalaboratory	delete
Orthodontics	Deltalaboratory	delete

How can the Clinic Send Data to Lab

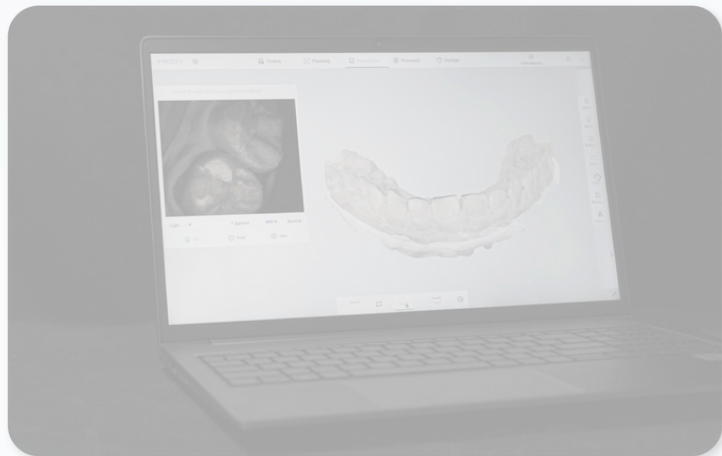

Then this lab will show as the partner of this account, and you can upload data to this lab of factory after scanning cases.

how can the distributors manage the devices?

How can the Distributor Manage the Devices?

If you are a distributor, you can bind all devices under your account and then add or authorize users (customers). In this way you can control the user's time of using the scanner.

Note 1: When add or authorize a user (customer), you must make sure that the user (customer) also registers a cloud platform account in advance before you can add it successfully.

Note 2: When a distributor bind the devices under his account, and add the customers as users, customers cannot see the device list in their platform accounts and cannot set transmission relations neither. They can only see the device list in Appstudio accounts.

Note 3: When a distributor bind the devices under his account, and authorize the customers, customers can see the device list and set transmission relations.

How can the Distributor Manage the Devices?

The screenshot shows the PTI Scanner management interface. The top navigation bar includes the PTI Scanner logo, the user's clinic name, and options for language (English), notifications, and user profile (oqit9vtc). The left sidebar contains navigation icons for Case, Device, Partner, Account, and Dustbin. The main content area displays a table of devices with columns for Number, Name, Number, Activation Time, Expiration, permissions, and operate. A search bar and a 'Bind device' button are located at the top right of the table. The 'Add user' button in the 'operate' column of the first device row is highlighted with a red box.

Number	Name	Number	Activation Time	Expiration	permissions	operate
1	PandaP2	[REDACTED] Y	2022-02-14 14:47:29	permanent	user	Add user Transmission

As a distributor, you can bind all devices under your account, and then click “add user” to authorize the customer using this scanner. You can set the expired time for this scanner.

This is generally recommended when some customers need the payment by installments.

how to use the scanner app?

How to Use the Scanner App

- Step1 : Double-click on the Appstudio  open it, then log in with the account you registered on our website.
(Note: Use the account that the devices has been bound, not the lab account.)

How to Use the Scanner App

Step 2: Check if there are devices under “Device” menu. If so then the devices are bound successfully.

The screenshot shows the PTI Scanner application interface. At the top left is the PTI SCANNER logo. At the top right is a 'Refresh the authority' button, a globe icon, and a user profile icon labeled 'egzlnst:2'. On the left side, there is a navigation menu with three items: 'start-up' (with a paper plane icon), 'Device' (with a scanner icon and highlighted by a red box), and 'Application' (with a grid icon). The main content area is titled 'Authorization Device' and contains a table with the following data:

Device Number	Device Name	Authority deadline
IS027E40511ZY	PandaP2	permanent
IS027E52770ZY	PandaP2	permanent

How to Use the Scanner App

Step 3: Then double click the PTI SCANNER Panda P2 and open it. If it shows the page like this, then we have successfully installed all the software and you can use it right now!
